modular laundry room

LAUNDRY ROOMS, MADE TO FIT YOUR SPACE

Create a laundry room that works exactly the way you need it. Our modular laundry system lets you combine different cabinets and accessories to create your own configuration — from a compact laundry area to a complete bathroom and laundry room. The furniture is made from furniture panels, designed to perfectly complement our HOME bathroom furniture range in colour and style. Complete the space with mirrors, shelves, accessories and other products from the KAMÉ collection to create a room that feels considered from every angle.

Wall unit with shelves	x 3	LAU/6-3WU-1/50-HM
Tall unit with shelves	x 2	LAU/4-4TU-1/50-HM
Floor unit with 1 door	x 3	LAU/5-6DO-2/50-HM
Worktop		LAU/21-WP/H18
MINI mirror		MR-R05/36-90

BUILD YOUR OWN CONFIGURATION

CHOOSE THE MODULES YOU NEED
AND COMBINE THEM TO FIT YOUR SPACE

In this set:

Wall unit with shelves	x 3	LAU/6-3WU-1/50-HM
Tall unit with shelves	x 2	LAU/4-4TU-1/50-HM
Washbasin cabinet		LAU/6-6DO-1/50-HM
Floor unit		LAU/6-6DO-2/50-HM
Worktop		LAU/18-WP/H18

Cabinets + appliances + worktop + accessories

Create a configuration that works for your room — whether you need a dedicated laundry room, a bathroom with laundry facilities, or simply a practical laundry zone in another space.

Mix & match with KAMÉ

Our laundry furniture is designed to work seamlessly with the KAMÉ **HOME** bathroom furniture range. Add matching mirrors, shelves and accessories from the KAMÉ catalogue to create a complete, coordinated interior.

IMPORTANT WHEN PLANNING YOUR LAUNDRY ROOM

CONSTRUCT YOUR PERFECT SPACE

Add the modules you want and arrange them in the order that suits your space. Check where your water connections are, so the washbasin and washing machine sit within easy reach of them.

 Please read the planning and ordering instructions through to the end before placing your order.

PLACING A WASHING MACHINE AND DRYER SIDE BY SIDE

If you want to place a washing machine and dryer next to each other, you must order a SIDE PANEL art. Nr. LAU/6-SP/50 between the two appliances. Required configuration:

Washing machine → Side panel → Dryer

The side panel is a separate item and must be included in your order.

PLACING AN APPLIANCE AT THE SIDE OF THE FURNITURE

A washing machine, dryer or other appliance can also be positioned at the end of the modular configuration.

For this solution, you must order SIDE PANEL art. Nr. LAU/6-SP/50, which has a worktop support bracket. The bracket supports the worktop when there is no cabinet underneath.

If the last module in your configuration is a cabinet, the additional side panel with a support bracket is not required.

Required configuration:

Washing machine → Side panel

ALLOW SPACE FOR YOUR APPLIANCES

When planning the opening for a washing machine or dryer, do not use the appliance's exact dimensions as the opening size. Add 10-15 mm, to allow space around the appliance for installation, ventilation and movement. Our recommended dimensions for washing machine and dryer:

- **Standard width is between 590 – 600 mm**
- **Our recommended gap is 610 -615 mm**

Always check the appliance manufacturer's installation requirements for your specific product.

WASHBASIN

Cutting instructions for the washbasin are provided with our washbasin. The customer or installer can cut the worktop easily by following them. The hole for the mixer tap is cut the same way, on site. No edge treatment is needed, as both openings will be covered by the washbasin and tap.

Always measure the required dimensions carefully before cutting.

WORKTOP LENGTH

KAMÉ worktops are available in standard lengths and can be supplied up to 2135 mm. Your modular configuration can be longer than 2135 mm. In this case, the worktop can be sourced separately from another supplier.

CUTTING THE WORKTOP

We offer five standard worktop lengths:

610 | 1235 | 1635 | 1855 | 2135

If you need a different length, the worktop can be cut to size during installation. The worktop can be cut by the customer or by the installer, following the cutting and edge treatment instructions provided with the product. All newly cut worktops' edges must be treated to avoid sharp corners

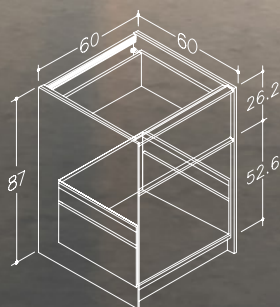

Always measure the required dimensions carefully before cutting.

ADDITIONAL HANDLE

Some floor and washbasin units have 2 drawers instead of 3. If you prefer the unified look of 3 horizontal lines, you can order an additional handle — purely decorative, not required. Gluing instructions are included.

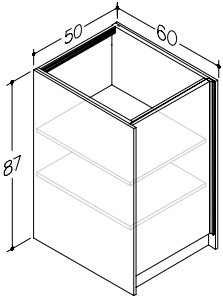

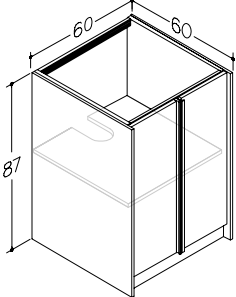

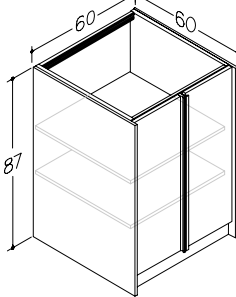

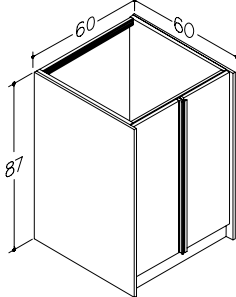

Handles are made from solid oak. Because natural wood absorbs stain differently, a separately ordered handle may vary slightly in shade from those already on your unit. This is a natural characteristic of oak, not a fault.
